

NEGATIVE FECAL RESULTS PROCESS

-please note: this is only for negative fecal screenings, if the pet has diarrhea or is sick and the fecal is negative, the fecal must be given to the dr just like other lab results

- 1) Go into **Exam** from Groups and under Fecal Test enter “fecal NPS” and then put your initials and date.
- 2) **Go to Vet2Pet and if owner is an active user:**
Start a chat, choose the pet, client, and medium urgency: The title should read “Good news! Fluffy’s fecal results show no intestinal parasites being shed.
- 3) **NOT a Vet2Pet user, then call the client/leave a voicemail:**
“Hello! I am calling to let you know good news. “Fluffy’s” fecal results came back that he/she is not shedding any intestinal parasites.
- 4) **For all pets, those chatted and called, send an email through eVet:**
NEGATIVE FECAL, make sure you address anything highlighted so that it is correct information and then press “none” on the highlighting format.
