

Nurse Visit Not Well Process

- 1) visit please charge the code NURSENOTWELL
- 2) fill out the appropriate information in the clients note section (in addition to what you normally record in the exam form)and remove the veterinarian exam part that does not apply if necessary
- 3) print the invoice with this information, have the client initial their choice about vaccinations and then sign below. Do this before you vaccinate the pet if they have chosen vaccination.
- 4) have client care scan this into documents section and titled it NURSE NOT WELL

Tip: To re-order, just click and drag row to the appropriate location and release.

✓	Hogan	Tracy Sands, D.V.M.	Nurse Visit - Patient Not Well	5/25/2022	1	\$0.00	0	\$0.00

Abnormalities noted by certified veterinary technician during nurse visit:
-
No fever present

Veterinarian Examination:
Scheduled: date
Performed: date and dr
Declined: client initials _____

Owner approval:
I have been given the option to vaccinate or not today based on the fact that vaccines may not provide full immunity when given to an ill pet and that the normal immune based response of vaccines may make my pet's signs worsen as their body focuses on the vaccination.

With this information I choose for my pet to:

Receive booster vaccinations today: _____

Not be vaccinated today, please reschedule the vaccines within the recommended time frame as long as that is best for my pet: _____
